Preservation Texas 2014 Most Endangered Places List Lerma's Nite Club in San Antonio, Texas

ANOTHER ENDANGERED CULTURAL LANDMARK

Among the 12 sites that Preservation Texas, Inc. named to its 11th annual list of Texas' Most Endangered Places is our own Lerma's Nite Club, 1602-1612 N. Zarzamora St. Evan Thompson, executive director of Preservation Texas commented,

"It's important to express that historic preservation is not just about architectural landmarks. It's also about restoring social and cultural landmarks. The role that

Lerma's played in terms of its cultural heritage is a principal goal."

This honor gives Lerma's a bit more leverage in the effort to preserve and restore this historic conjunto night club. **The restoration of our National Register Landmark in the heart of the Westside depends on buena gente like you who can raise funds or write or call your city council representatives to allocate funds for its restoration. SAVE & RESTORE LERMA'S!**
